1.3 : Registration Process
1.4 : Registration Fees
1.5 : Age Categories
1.6 : Entry Rules

1.1 : Federations and organizations which can participate:

Only the federations and national organizations **in good standing (administratively and financially) with FISav as of 14 June 2026** are permitted to register athletes for the World Savate Assaut Championship.

1.2 : **Official composition of a delegation from each participating country**

Each member country in good standing with FISav can register a delegation. It consists of one athlete per weight and gender category, as well as the coaches and officials according to the following scale.

Athletes	One athlete per weight category and gender	
Coaches	1 – 5 athlete(s)	1 coach
	6 – 10 athletes	2 coaches
	+ 10 athletes	3 coaches
Officials	1 – 2 athletes	1 official
	3 – 5 athletes	2 officials
	6 – 9 athletes	3 officials
	+ 9 athletes	4 officials

The Officials must have the required skills for the level of the competition. They must be validated by FISav and be on the current FISav classification list, available on the FISav website.

If a country is unable to provide the required number of officials, it must inform FISav when registering its delegation. You can ask the federation of another member country to provide officials for your delegation.

A training course will be offered by FISav in June (17/06 -21/06/2026). This training will take place in Slovenia during a 5-day seminar. For more information, please contact FISav.

1.3 : Registration Process:

Registration for athletes, medical staff, and officials (judges and referees) for the 2026 World Championships takes place on the FISav registration website. The website address, username, and password will be provided to your national federation.

On this website, you can manage the pre-registration and final registration of participants in the 2026 World Assaut Championships. In addition, an up-to-date summary of the registration fees payable to FISav will be permanently displayed.

1.3.1 Process Phases

Each section of the process will only be available during the corresponding period, according to the officially published dates.

• Pre-registration: Available from the official opening of registration until the pre-registration deadline, Sunday, 14th June 2026 (quantitative registration). After this date, a fee will be charged for any late registration of athletes or medical staff for the 2026 World Savate Assaut Championship.
This will allow FISav to inform the organizer in advance of the total number of athletes, officials, and medical staff who will participate in this World Championship.
Nominative Registration: This is automatically activated at the end of the pre-registration period and remains open until the final registration deadline, before Sunday, 19 th July 2026. Any change of athletes, coaches or officials before the competition must be reported to FISav. Without this individual confirmation of athletes' participation, the country will no longer be able to compete in the 2026 World Championships.
• Registration fees: see article 1.4

If, for any reason, your national federation is unable to register participants online, you can contact the FISav secretariat for assistance. If the secretariat handles the registrations for you, the registration fee is €5 per person, with a minimum of €20. This fee covers the additional administrative time. For this service, please email the International Savate Federation secretariat directly at fisavate.inscription@gmail.com

Please note: Accommodation packages must be booked and paid for directly with the organizer, not with FISav.

1.3.2. **Attention** : Delays for **VISAS**:
The dates above do not take into account the delays, variable according to the countries, to obtain visas in the different participating countries.
If these delays are long for certain countries, they have to anticipate it and send the names of the participants to FISav early enough in order to take into account these particular delays. As soon as FISav knows with certainty the names of the people of the delegation, the Organizer will be able to send the invitations for the visas.

1.3.3. **Attention** : Forfait (total or partial) by a country that has registered
If the withdrawal, of part or all of a delegation which is officially registered, is without an acceptable reason, the organiser will have the right to ask this country for compensation of the costs that have been incurred (hotel reservation, meals, etc).

1.4 : Registration Fees for the Championship
40 euros per athlete and 40 euros per out-of-quota coach, to be paid to FISav **before 19 July 2026** (deadline for nominative inscriptions of the athletes) and 60 euros for categories registered between 14 June and 19 July 2026. Inscriptions cannot be accepted after 19th July 2026.

1.5 : Age Categories:
The World Savate Assaut Championship is composed of **only one** age category, juniors, seniors and veterans, for the two genders: athletes who are aged over 18 years old on the day of the weigh-in, the official start of the competition. **It is not possible to have an age derogation for this championship.**

1.6 : Entry Rules :

1.6.1. Each country can register **only one athlete** per weight category and gender.

1.6.2 Every athlete must be registered by their national organization, affiliated to FISav. Through this commitment, this organization certifies that it has verified, under its own responsibility, the age, the weight, and the medical aptitude, as well as the technical and sporting level of the athletes for this form of competition in assaut.

1.6.3 The criteria of national selection are left to the national Savate organization of the participating countries.

1.6.4 **The athletes must be insured by their respective national organization against all possible damage that could occur on the occasion of this competition**.

1.6.5 At the time of the registration, each country will designate a head of delegation who will be the spokesman for his country with FISav and the organiser. **The head of delegation will be selected from the accompanying national coaches or technical officers (e.g. DTN)** and have all power of decision over the athletes and coaches of his delegation.

1.6.6 **A substitute**, of the same weight and age category, can be registered at the time of nominative inscription (before Sunday 19 July 2026). They can take part in the competition according to the following conditions: **during the weigh-in before the start of the competition**, if the athlete officially designated by his country is absent, the substitute must be introduced by the head of delegation. As soon as the weigh-in and medical checks are completed, the substitute becomes the official athlete representing his country in his category. The athlete who was originally registered and is absent, is then definitively eliminated from this competition.

1.6.7 Licence and Nationality
Reminder: Volume II - Rules of Procedure of FISav adopted by the general assembly of 2nd October 2005 in Paris (France), modified by the general assembly of the FISav held om 30th October 2014 in Rome (Italy), and by the extraordinary general assembly of FISav held on 21st July 2023, in Varaždin (Croatia).

General principles:

- In the course of a sports year, an international competitor must, in principle, only be licensed to the national organization of Savate, affiliated to FISav, of the country of which he is a national.

- In the course of a single sports year, the fact that a competitor is simultaneously licensed in different national bodies affiliated to FISav is not allowed without specific written agreement between the national groupings concerned which would issue these licenses, and prior agreement of the FISav.

- The competitor must present an identity document (passport, identity card ...) attesting to the nationality represented during any participation in the official competitions of the FISav.

Rules on Nationality of athletes – as agreed by the Extraordinary General Assembly, held on 21st July 2023, in Varaždin (Croatia)

1) Any competitor in international competitions must be a national of the country of the NF which is entering such competitor.

2) All matters relating to the determination of the country which a competitor may represent in the International Competitions shall be resolved by the FISav Comité Directeur.

Bye-law to rules on nationality of athletes

1) *A competitor who is a national of two or more countries at the same time may represent either one of them, as he may elect. However, after having represented one country in continental or regional competitions or in world or regional championships recognised by the FISav, he may not represent another country unless he meets the conditions set forth in paragraph 2 below that apply to persons who have changed their nationality or acquired a new nationality.*
2) *A competitor who has represented one country in continental or regional games or in world or regional championships recognised by the FISav, and who has changed his nationality or acquired a new nationality, may participate in international competitions to represent his new country provided that at least three years have passed since the competitor last represented his former country. This period may be reduced or even cancelled, with the agreement of the national federations concerned, by the FISav Comité Directeur, which takes into account the circumstances of each case.*
3) *If an associated State, province or overseas department, a country or colony acquires independence, if a country becomes incorporated within another country by reason of a change of border, if a country merges with another country, or if a new NOC is recognised by the IOC, a competitor may continue to represent the country to which he belongs or belonged. However, he may, if he prefers, elect to represent his country, or be entered in international competitions by his new national federation, if one exists. This particular choice may be made only once.*
4) *Furthermore, in all cases in which a competitor would be eligible to participate in international competitions, either by representing another country than his or by having the choice as to the country which such competitor intends to represent, the FISav Comité Directeur may take all decisions of a general or individual nature with regard to issues resulting from nationality, citizenship, domicile or residence of any competitor, including the duration of any waiting period.*

2) Savate Integrale: in one or two parts
3) Savate Shoes (validated by the Official Delegate)
4) Gum shield
5) Shin pads (optional)
6) Approved headguard (optional)
7) Groin protection *(compulsory for men and women)*
8) Breast protection *(compulsory)* for female competitors

The equipment must be in good condition and conform with the FISav rules. There will be equipment checks for each athlete.

Attention: certain shoes (too hard) do not conform to the Assaut ethic (no deliberate wounding). For this competition, Savate shoes must be supple enough to correspond to this spirit of the Assaut. As well, the size and form of head guards must be suited to this competition.

The Délégué Officiel Général will refuse any equipment which does not match these criteria. His decision will be final.

Reminder: In assaut, each athlete is free to wear a head guard or shin pads, or not to wear any, independently of the opponent.

2.4: Weigh-In

The weigh-in is compulsory before the competition for all the participating athletes.
The athlete's weight must correspond to the registered category.
Each athlete is entitled to a maximum of 3 weigh-ins, during the weigh-in period, if he needs to lose weight in order to correspond to his registered category (FISav rules).

2.5: Medical Control:

2.5.1 For competitions in assaut, certain prior medical check-ups are obligatory for all the participating athletes. These check-ups are those required under the FISav medical rules. These prior check-ups are the responsibility of each national Savate organisation and should have taken place in the athlete's country.

2.5.2 The national organization which made the entries attests, under its sole responsibility:
- that each athlete has the medical capability for this kind of competition in assaut and that he has undergone the medical examinations, as required under FISav rules.
- that each athlete is insured against any physical injuries that could be caused during the competition. By registering an athlete, the participating federation or national organization accepts all responsibility in this matter.

2.5.3 **Before the start of the competition**, an obligatory medical control may be undertaken by a qualified doctor, designated by the organiser. The doctor will decide on the medical ability of the athlete to take part. This decision is without appeal.

2.5.4 FISav, being a signatory to the World Anti-Doping Code, requires anti-doping controls to take place at competitions. If an anti-doping control, in accordance with WADA rules, takes place, no athlete can exempt himself. In the case of a refusal, the athlete will be eliminated from the competition. The anti-doping control can take place before, during or after the competition.

2.6 : Progress of the Competition

2.6.1 Prior checks
After the weigh-in and any medical check-up, the General Official Delegate makes up the definitive list of the athletes, men and women, present in each category, from the entries sent from each country to the FISav. He may take into account substitute athletes.
If, after the weigh-in, an athlete does not fit in his registered category, the General Official Delegate considers nonetheless if it is possible to include him, exceptionally, in the competition, for his sporting interest and for equity. The decision of the D.O.G. is sovereign and without appeal.

2.6.2 Rules of the competition :

- The pool system is used for the elimination heats. However, if there is a large number of athletes registered in a particular category, the D.O.G. may decide on direct eliminations. In this case, he will inform the delegations that have entered this weight category.
- The rules used in Assaut are those of the Fédération Internationale de Savate (FISav) for competitions in Assaut.

2.6.3 Pool results, semi-finals and finals
The system of elimination by pools makes it possible to select the four semi-finalists for each category. In the system of elimination by pools, the following scale is applied:

Victory	3 points
Defeat	1 point
Draw	2 points
Abandon, Forfeit	- 1 point
Disqualification	- 3 points

In the case of a draw between two athletes **at the end of the pool**, the winner will be determined according to the following criteria:
1) The winner of the assaut they contested.
2) The athlete having received the fewest warnings during his assauts.
3) The one who gained the most victories.
4) The lightest at the moment of the weigh-in.
5) Drawing lots.
In all cases, before an assaut, each athlete must first present himself to the official delegate of the ring before the start of the assaut (even if the athlete wants to declare forfeit for the assaut). If an athlete does not show for an assaut, the official delegate of the Fédération Internationale de Savate declares him as having retired from the championship.

No title can be awarded to an athlete who has not fought at least one assaut during the championship.

2.7 : Contesting a decision (Management Board (CDI) of FISav, 14th December 2003, 16th resolution)

If a decision is contested, only the **Head of delegation** has the right to deposit a **written complaint, using the specific FISav form**. However, this principle must comply with the following precise rules:

- The head of the delegation, who deposits the complaint, cannot be one of the officials. See article 1.6.5 above.

- The complaint must be justified and lodged with the official delegate **not more than 15 minutes after** the announcement of the contested decision.

- For the complaint to be acceptable, and then to be assessed, it must relate only to facts of non-respect of the competition rules, and must not be about an evaluation of an athlete made by the officials.

A committee composed of the General Official Delegate (DOG), and ring delegates will make a decision on the complaint in such a time so as not to impede the timing and running of the competition. The decision is final and cannot be contested. In the event of equality, the opinion the DOG is decisive and overruling.

2.8 : Unforeseen situations

In case of a disagreement about a situation for which no provision was made explicitly in the present rules, the Sports Director of the FISav, if he is present, is informed. Then, an interpretation committee rules on it. The decision of this committee is final. This interpretation committee is composed of at least 3 different countries. It is composed of the DOG, of the ring official delegates, and 2 persons designated by the DOG, among the members of the delegations present. In case of divided opinions, the DOG has the final decision.

3 Financial Responsibilities

3.1 : Costs borne by the Organiser
3.2 : Costs borne by the Participating Countries
3.3 : Costs borne by the Fédération Internationale de Savate

3.1 : Costs borne by the Organiser

If no particular written agreement has been made otherwise with the FISav, the organizer ensures all the environment and sportive equipment necessary for an international Savate competition, concerning for example: the venue, the rings, weighing machines, gongs, stopwatches, etc., complying with FISav rules. The organizer also provides a medical control and first aid service.

The organiser is responsible for the organisation of transport of delegations between their places of arrival (Boulogne-sur-Mer station), the place of accommodation and meals, and the place of the competition. The organiser is entitled to request fees for these services, which must be requested in good time.

3.1.1 : **The Athletes**:

The organiser will only take responsibility for ONE athlete per weight and gender category.

3.1.2 : **The Principle Coaches (including the head of the delegation)**:

The number of principle coaches, taken in charge by the organiser, is limited according to the following scale, per country:

- from 1 to 5 athletes : 1 coach
- from 6 to 10 athletes : 2 coaches
- more than 10 athletes : 3 coaches

3.1.3 **: The Officials (including the head of the delegation)**:

Each national delegation is obliged to propose a number of officials according to the following scale:

- from 1 to 2 athletes : 1 official
- from 3 to 5 athletes : 2 officials
- from 6 to 9 athletes : 3 officials
- more than 9 athl4tes : 4 officials

After the final registration of the officials (nominative, by 8th September), depending on the number of officials registered and the number necessary required at the event, FISav reserves the right to refuse some officials to limit the cost to the organizer. They will be informed by FISav in September. However, those affected may participate (e.g. for international experience) at their own expense.

A country may ask another country to provide the obligatory officials (decision of the FISav Management Board, 14th December 2003). **In the case where a country is unable to provide the compulsory number of officials required** according to the scale above, it must inform FISav when registering its delegation. If a solution cannot be found, FISav reserves the right to reduce the number of registered athletes according to the number of officials presented.

Category of costs, taken in charge for the **officials presented by the countries and accepted by FISav**:

- Wednesday : Evening meal and accommodation on Wednesday night
- Thursday : Breakfast, lunch, evening meal and accommodation on Thursday night

No other expenses, made by the participants (athletes, officials, or coaches) will be taken in charge by the organizer

3.2: Costs borne by the Participating Countries:

3.2.1: The registration fees to be paid to FISav: **40 euros** per athlete and out-of-quota coach.

3.2.2: The travel costs of the athletes, officials and principle coaches:
The participating countries take in charge the travel costs (round-trip) of the athletes, the coaches and the officials designated by their national organization of Savate.

3.2.3: Financial Contribution
The financial contribution per athlete and member of the support team depends on the accommodation package chosen by the relevant national federation.

Principle:

- **A: The participant in the 2026 World Championship chooses one of the packages offered by the organizer.**

- **B: The participant in the 2026 World Championship does not choose one of the packages offered by the organizer.**

- **A: For the 2026 World Championship, the organizer has prepared three accommodation packages,** with prices ranging from 300 to 525 euros per person. These packages are detailed in Annex 1. Each package covers the period from Wednesday, 9th September 2026, to Sunday, 13th September, after breakfast. When a participant (athletes, coaching team, additional officials (those not accepted by FISav) chooses a package, the cost of the package covers accommodation and meals for the period of September 9-13, as well as the costs of the gym, ring, medical services, etc.

- **B: If for any reason you do not wish to take advantage of the accommodation and meal packages offered by the organizer,** you will need to pay a participation fee of €100 per athlete and per coach to cover organizational costs (gym, rings, accommodation for officials, medical services, etc.). You must inform the organizer of this during registration. The participation fee must be paid to the organizer before Sunday, 19th July 2026.

Any questions regarding accommodation and meals for delegations and accompanying persons must be addressed directly to the organizer, **Mr. Yann Pochet.** pochety.yann@gmail.com

The financial contribution of athletes, coaches and additional officials (those not accepted by FISav) must be paid to the organizer before Sunday, 19 July 2026.

The officials (judges, referees, DOG) **accepted by the FISav** are not required to pay. Accommodation may be in shared rooms.

If any participants wish to arrive before the competition (Wednesday, 9th September), or leave after the competition (Sunday, 13th September), they must contact the organizer Mr Yann POCHET.

3.2.4 : **The Head of Delegation**

A head of delegation is appointed by the national body of Savate, affiliated to the Fédération Internationale de Savate, **from among the main coaches**. The Head of Delegation cannot be an official.

There is only one head of delegation per participating delegation. He is the spokesman for his country for discussions with FISav (Official Delegate) and the Organizer.
On arrival of the delegation, the head of delegation must pay any outstanding costs for the participation of his delegation that he has requested, see 3.2.3, above

The head of delegation must contact the organizer in writing (email, letter) at the latest 2 weeks before the start of the competition, to inform him of the mode of transport used by his delegation, and the date and the time of arrival at Boulogne-sur-Mer station.
After this date, the organiser is no longer obliged to welcome the delegation concerned, who will have to arrive at the place of the competition by their own means.

3.2.5 : **Additional expenses of the participants of the championship:**
Any expenses not foreseen as the responsibility of the organizer (see article 3.1 preceding) will have to be **paid immediately** (in euros or legal tender of the host country) by the person who made them, or by his head of delegation (for example : bar consumptions, hotel or restaurant supplements, etc.).

3.2.6: **Costs associated with damage:**
Any damage caused by a member of a delegation (athletes, coaches, supporters, etc.) requiring repair costs must be paid by the federation responsible for the good conduct of its members, including its supporters. It will then be up to the national federation to claim reimbursement from its member (or its supporter) who caused the damage.

Where the organiser has difficulties in paying the sums owed by a delegation for a claim due to degradation; in order to free the organiser of the sums owing for the reclamation, the FISav can pay the debt owed and reserve the right to consider the debt of the delegation as its own, thus the incriminated delegation will have to repay the debt to the FISav.

3.2.7: **Behaviour harmful to the image of Savate**, and / or deliberate damage by members of a federation, may lead FISav to hold a disciplinary commission against the representative of the federation concerned.
Particularly serious behaviour may result in immediate exclusion from the competition and the competition venue.

3.2.8 Recommendation:
To avoid any mistake by the organizer, it is recommended that each delegation comes with

- its own national flag (maximum size: 1 m x 1.50 m)
- and its own national anthem in a transferable format

3.3: Costs borne by the Fédération Internationale de Savate

3.3.1 : FISav appoints the Delegate Official General (DOG) and takes in charge, for the duration of the competition:

- the additional expenses, essential to the good-running of this competition, of the ring Delegate Officials. (DO Ring).

3.3.2: FISav will receive and register the entries of each affiliated country and the composition of each national delegation. It will communicate them to the organizer and to the General Official Delegate (DOG) of FISav. The DOG, with the help of the ring delegate officials, will organise the bouts of the championship, respecting all the regulations of the Fédération Internationale de Savate.

The **winner** of the competition is awarded the Gold medal and the title of:

in the appropriate weight category.

No title can be awarded to an athlete who has not at least fought one assaut during the championship.

3.3.4: Images of the competition
