Classification officials FISav for 2026

The scores are given on the principle of
level E (official who can judge /referee the qualifying tournaments),
level F (official who can judge /referee the qualifying tournaments and final matches of the championships), and level O (official who can judge /referee the international open or cup competition and galas).
S for Savate Pro is for participation in Savate Pro competitions.
Each official who already have license and who judged and have level (given by DO or DOG) on competition in the previous year has a renewed license with personal identification number for year for which the license is valid.
Officials who successfully finish their exam but have not been at the international competition have a provisional license and must participate on competition in order to be evaluated by DO and determines their level (E, F or O).
Officials who already have license but have not been at the competition in the previous two years have a provisional license and must go to the referee seminar and participate on competition in order to renew license.
Officials who do not have license must pass International Exam for judges, referees and official delegates of FISav and participate on competition in order to be evaluated by DO and determines their level (E, F or O).
